

*A very special program  
developed for your child by:*

ALL ABOUT  
**SPEECH & LANGUAGE**

## *Beyond the Basics - Digging Deeper Across Social Skills*

This unique program is planned and facilitated by licensed, insured, and skilled Speech-Language Pathologists with frequent consultation and collaboration with Occupational Therapists. Our program is designed to teach children essential social skills, aspects of higher-level communication that allow them to connect with and build successful relationships with other individuals. This program will dig deeper beyond the foundational skills addressed in our Elementary Socialights program, specially designed for the students enrolled!

### **Some of the topics of instruction include:**

Establishing and Maintaining Relationships	Using Good Judgement when making Decisions
Handling Embarrassing Feedback/Situations	Messages our Body Language sends to Others
Flexibility with Peers	Dealing with Disagreements and Problems w/ Peers
Communication with Adults vs Peers	Assertiveness
Peer Pressure	Identifying "banter" vs "bullying"
Manners & Making Good Impressions	

### **What are the participation requirements?**

10 - 12 years old. Each child will be screened prior to admittance into our program to determine appropriateness of and readiness for enrollment. The screening is \$60.00.

### **Details on our current enrollment:**

South Tampa Office, 324 N Dale Mabry Hwy., Ste. 201, Tampa, FL 33609

Dates/Times: Mondays, February 10 - May 18, excluding March 16, 4:00-5:00pm

**Cost:** \$60 per class. You will receive a monthly statement for charges incurred the previous month. One absence will be excused during this program; otherwise, you will be charged regardless of attendance. Attendance is critical for the integrity of the group experience. With this said, there may be circumstances where members of the group cannot attend; this will not result in cancellation of group. The therapist, instead, will provide intensive one-on-one instruction to the group member to introduce the week's topic. While we ideally want all members of the group in attendance, we are skilled in adapting the therapy process to best meet the needs of the child(ren) participating any given session.
